## ***A new generation art gallery***

Our philosophy is to make art accessible to everyone.

Colorfield is an art gallery that offers the innovative concept of on the spot exhibitions to art aficionados, amateurs or simply curious art lovers. With a diverse range of carefully selected artwork, Colorfield transposes art at home, allowing you to admire, to acquire or just to exchange points of view on works.

In this space dedicated to contemporary creation, Colorfield proposes a wide collection that matches the most demanding tastes, gathering some works from emerging or confirmed visual artists, painters, photographers and sculptors.

Nowadays, appreciating or owning artwork is no longer the privilege of a small community of collectors. With the boundaries between art and interior design fading out, it becomes fashionable to enhance one's living space with a rare, original piece of art. In fact, everyone is looking for the painting, the photograph or the sculpture that will reveal their interior.

## ***Colorfield Gallery's missions***

Colorfield is a "moving" gallery. Its desire to spread arts is reflected by its active participation to art fairs and exhibitions in Europe and across the world, all year long.

Colorfield also organizes private art sales for law, auditing and consulting firms. In the context of a casual cocktail, we present a selection of works to guests in a relaxed and refined atmosphere.

Colorfield combines competence, experience and taste to select artworks that innovate in terms of technique, originality and beauty.
