## THEME AND INSPIRATION

The main theme of my work is the different ways in which people are connected to each other.

I am looking for new ways to visualize human interaction with paint and canvas as a medium.

My paintings are built out of many layers of people, not visible at first sight, this corresponds with the sometimes incomprehensible and complex human interactions.

Besides my personal interest in people I think that our changing society due to internet and social media caused my urge to express this new and unique situation.
