

Gallery Harang

Harang Gallery specialises in advising Korean artists and strengthening the position of Korean art in the international art scene. It has two goals: to promote emerging and established Korean artists internationally and to introduce international artists to the local art scene.

Harang Gallery has a strong presence at art fairs and forges close relationships with collectors, curators and art professionals around the world. Through active interaction with domestic and foreign galleries, it provides exhibition opportunities for artists and explores potential expansion opportunities in the international art world.
